

Technical sheet No 105GM/KAR

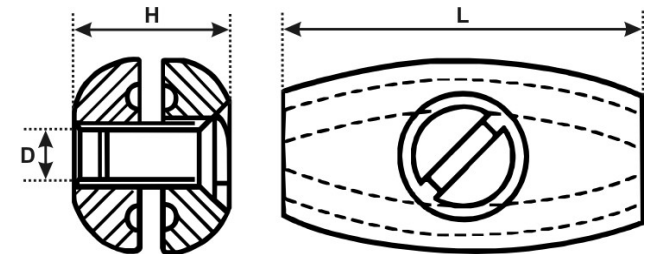

1. Supplier name: **GÓRALMET Sp. z o.o.**

Supplier address: **ul. Krakowska 68, 32-860 Czchów, tel/fax 014 6635260**

2. Product name: **Egg shaped wire rope clip**

3. Description and use: Egg shaped wire rope clips, is a assembly consisting of two-piece body with bolt, that allow for two parts of rope to be pressed together when the bolt is screwed. Suitable uses include suspending static loads and hanging, with the use of round steel wire ropes. For use within technical parameters given in point 5. Diameter of selected wire rope should be same as nominal size of the clip.

4. Egg shaped wire rope clips cannot be used in the applications that has safety requirements regulated by law or standards, for example as the primary securing devices on mine hoists, crane hoists, eye terminations for slings for general lifting service or construction tensioning devices. Do not overload wire rope termination made of above clips over WLL (kG) given in column 10.

5. Technical parameters:
